For this, we benefit from high-quality installations (outdoor school 70m x 30m, two lungeing corrals, stable block with 20 loose boxes and a large outdoor area in which to work horses).

Courses are given by:

- **Sebastian Zambrano**, renowned rejoneador who, several years ago, was still triumphing in the most important Plazas de Toros in Spain. Many professionals in the horse world put their horses into Sebastian's care (Don Alvaro Domecq founder of the Royal Andalucian Riding School, Luis Valenca of Portugal, promoter for the equestrian academy of Bartabas...)
- **Lucie Brossette**, highly qualified instructor who has worked in many countries including Belgium and the United States ...She is trilingual: French, English, Spanish

Each pupil will have at their disposal two or three horses (according to the capability of the student):

- a youngster
- a trained horse (doma vaquera and/or high-school dressage according to the student's choice of discipline)

Pupils will therefore benefit from a course adapted to their level and their objectives (preparation to pass federal exams, for competition, for entry into an academy such as the Academy of Equestrian Art of Versailles...)
